ACADEMIC QUALIFICATIONS:

Thakur College of Engineering & Technology (B.E.)	**2022 – 2026**
University of Mumbai	9.61 CGPA
Shri T. P. Bhatia College of Science (H.S.C.)	**2020 – 2022**
Maharashtra State Board	77.83%
Dr. T. R. Naravane Vidyalaya (S.S.C.)	**2019 - 2020**
Maharashtra State Board	95.80%

COURSEWORK / SKILLS:

- **Language:** Python, JavaScript, HTML, CSS, TypeScript
- **Technologies/ Frameworks:** ReactJS, NEXT, TailwindCSS, NodeJs, ExpressJs
- **Database:** SQL, MongoDB, Firebase, Supabase, PostgreSQL, Prisma
- **Tools:** Visual Studio Code, Git, GitHub, Postman
- **Knowledge:** DSA in Python, Full Stack Development, OOPS

PROJECTS:

Kitsune Shop | ReactJS | TailwindCSS | NodeJS | ExpressJS | MongoDB | JWT   **Dec'24**

- Designed and developed a full-featured eCommerce platform for anime merchandise, allowing customers to browse products, manage carts, and complete purchases securely.
- Implemented role-based access with separate interfaces for customers and admins, enabling efficient product and order management through a dedicated admin dashboard.

FSD Management System | Angular | Spring Boot | PostgreSQL | JWT   **Mar'25**

- Designed and developed a role-based student management system with secure login using UID and contact-based credentials to manage students, mentors, groups, and attendance efficiently.
- Implemented three distinct roles—admin, mentor, and student—with specific permissions: admins manage users, groups, and attendance; mentors update profiles, access batch-specific student and group data, and handle attendance; students view their group details and attendance analytics.
- Structured the platform around key entities including Student, Mentor, User, Attendance, Batch, and Group to ensure clear data organization and smooth role-based functionality.

FileCloud | NEXT | TailwindCSS | Supabase | Clerk | Nodemailer   **Jul' 25**

- Built a cloud storage platform allowing users to upload image or PDF files, generate short URLs for access, and optionally secure them with password protection.
- Implemented file management features including file deletion, password updates, public sharing, and the ability to send file links via email with sender details.
- Integrated secure user authentication, file storage, and email delivery using a single user role for simplified access and control.

INTERNSHIP:

DevionX Technologies | Full Stack Developer Intern   **Dec'24 – Mar'25**

- Developed responsive web applications using Next.js with SSR/SSG, TailwindCSS, and optimizations like lazy loading, code splitting, and image optimization to improve performance and SEO.
- Designed modern, mobile-first UI/UX layouts ensuring accessibility, cross-device compatibility, and enhanced user experience.
- Managed projects with Git/GitHub and deployed to Vercel and Netlify for high-performance hosting and efficient delivery.

CO/EXTRA-CURRICULAR ACTIVITIES

- Participated in Multicon-W 2023 – Poster Presentation Competition
- Participated in Multicon-W 2023 - Python Workshop
- Served as a Disciplinary Committee Member for Zephyr 2024, ensuring the smooth and orderly execution of the event.

HOBBIES:

Travelling	Reading Web-Novels	Playing Online Games
